

## “Think Like a Plastic Detective Project.”

Dear Students and Teachers,

Thank you for attending **National Geographic Learning’s Project Exploration last week**. Dr. Imogen and I enjoyed the lesson and the level of student engagement and participation as we explored both the benefits and potentially harmful uses of plastic in our environment. Together we learned about the impact of waste in our environment and why as global citizens we must work together to keep our environment safe.

We are asking students to **Think Like a Plastic Detective** to create an innovative project demonstrating their understanding of using natural resources to reuse, recycle, or transform plastic. Students may work individually, in groups, or as a class to complete the project. Using the attached rubric and project directions, all project submissions are due by Thursday 29<sup>th</sup> of April. We will be awarding 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> place prizes for the most innovative and creative project submissions.

Please submit final projects via link <https://forms.gle/YBkgbQUhjXpHbkcv5>  
or scan QR code

If you are having difficulties accessing the form, you may also  
email: [davida.alston-smith@cengage.com](mailto:davida.alston-smith@cengage.com)

Thank you for using your detective skills to complete an innovative and inquiry- based project!

Yours Sincerely,  
DaVida Alston – Smith
