

## **“Become an Animal Superhero.... Save the Animals, Save the World!”**

Dear School Leader,

National Geographic Learning is excited to announce Project Exploration 2.0, an interactive and enriching virtual learning experience in English for Students Grades 3 – 5. Join us as students explore the biodiversity that makes up our planet and learn about why saving these species and spaces is vital for preserving our planet as we know it. Learners will use a variety of text and resources to engage in STEAM based activities all whilst building their English language and literacy skills. This 30-minute online class will be hosted by National Geographic Learning’s own Engagement Consultant, DaVida Alston Smith with a special guest appearance from a National Geographic Explorer! During this session students will delve into important global issues which are tailored to raise awareness about endangered species and animal conservation through student-centered activities designed to encourage critical thinking and promote scientific literacy. The event will be held via LIVE Zoom webinar (and live\* streamed on YouTube if your students are watching at home).

As we would like to truly enhance the learning experience for students, they will receive an activity before the session to activate their prior knowledge about the topic. Additionally, each class will use their investigation and innovation skills to complete a culminating project. Information regarding resources, activities, and the “Animal Conservation- Save our Animals Project” will be shared with Teachers once they have completed the registration process below.

### **Registration Information:**

**Wednesday, 9<sup>th</sup> June 2021**

**GST ( *Gulf Standard Time* )**

**14:00 pm – 14:30 pm**

**BST ( *British Summer Time* )**

**11:00 am – 11:30 am**

Participating teachers must register for the session via the Zoom registration link to receive pre-activities and exclusive YouTube live link for students viewing the session at home.

**REGISTER HERE**

We are very excited to host this event for your school!

Please do not hesitate to contact our team if you have any questions or require more information.

Yours Sincerely,  
National Geographic Learning Team  
Middle East
